

THE NEW PATIENT JOURNEY AT 76 DENTAL

At 76 Dental we are proud to have always had extremely high standards of cross-infection control. We have put in place extra systems and protocols in order to keep both our patients and staff safe during COVID-19.

BEFORE APPOINTMENT

We will give key information ahead of your appointment

You may be asked to update forms online/over the phone

We ask for any payments to be made via contactless/over the phone

ON THE DAY

Please come unaccompanied where possible

Ensure you have been to the toilet, are well hydrated and have brushed your teeth before leaving home

Limit the amount of possessions you bring with you to the practice

Call the practice from the car park once you have arrived

UPON ENTRY

We will inform you via phone when it is time for you to enter the practice

At the front door you will be provided with hand gel and have your temperature taken

We will have distancing markers on the floor to ensure safe social distancing

You will be escorted straight into surgery once all screening has been completed

TREATMENT ROOM

Our team will already be dressed in full PPE when you enter the surgery

We want to ensure you that all treatment rooms are thoroughly cleaned and disinfected between patients as per our usual strict protocols
